

Balancium

Guide Wire **CE**₀₀₈₆

The PTCA guide wire for any case and any fingers

Product Information

Features

- Core-to-tip or Shaping ribbon
- Nitinol + stainless steel core
- Patented welding technique
- Hydroskin™ hydrophilic coating
- 1:1 transmission
- 3 tip-load levels

Benefits

- Multiple choices
- Good visibility
- Super-smooth navigation
- Excellent tactile feedback
- Balanced flexibility and support
- Great pushability and trackability

Ranges

- O.D: 0.014"
- Length: 185/300cm
- Tip load: floppy/supersoft/soft
- Tip shape: straight/J-tip
- Core-to-tip / shaping ribbon
- Radial support: moderate

-  3 Tip-load Levels offer multiple choices for you
-  3 cm Platinum Coil provides great visibility
-  Stainless Steel Spring Coil balances flexibility and support
-  ACT™ Welding enhances tactile feedback
-  30 cm Hydroskin™ Coating guarantees smooth navigation
-  Nitinol Core Wire improves flexibility/trackability
-  Matchlink™ Welding ensures 1:1 transmission
-  Stainless Steel Core Wire provides good pushability
-  PTFE Coating reduces friction in catheter
